Cut on the dashed line, laminate, add hook-and-loop dots

★ My Token Board

Name _____

I am working for:

Show the picture or write the reward. Let the learner choose before starting.

Place a picture here or write the reward

1 2 3 4 5

I am working on: _____

5 tokens = my choice!

1. Pick the reward first
Offer 2 or 3 choices from the menu and put the chosen picture in the box before the work starts.

2. Token right away + praise
Hand over a token within a few seconds and name the behavior: "You raised your hand, nice!"

3. Exchange when full
When all 5 spots are filled, swap the tokens for the reward at once, then start a fresh board.

Print on cardstock. Token pieces to cut out are on page 6. Start with a board the learner can fill quickly, then thin the system with the plan on page 7.
